McConnell Taping

RIGIDGUARD - Non-stretch tape with a very strong adhesive, provides higher level of support for joint injuries. Commonly used for McConnell taping, stabilizing the patella to reduce knee pain during physical activity. Pair with Cover-All tape as a protective layer on the skin.

COVER-ALL - Stretchable, breathable tape can be used directly on the skin or as a protective second layer to secure a dressing in place during activity, even on areas with high ranges of motion (shoulders, knees, elbows). Supports muscles, joints and minor injuries with light compression.
