OUR STORY

Headquartered in Warrenville, Illinois, Performance Health is a leader in consumer healthcare, rehabilitation and fitness and the largest global manufacturer and distributor of branded products. Performance Health sells into over one hundred countries and in a variety of U.S. clinical markets and through leading national retailers through a multi-national network of distributor partners.

Our Company's product offering includes an innovative and broad range of rehabilitation and wellness products, including progressive resistance bands, tubing, exercise balls, hand exercisers, stability trainers, therapy putty and a number of other specialty products and market-leading topical analgesics. In addition, we formulate and manufacture a variety of highly engineered products primarily for dental and specialty healthcare applications.

Performance Health markets its diverse product offering under the well-known and highly recognized THERABAND®, Cramer®, Homecraft®, Days®, Sammons Preston®, Bon Vital®, Perform®, Rolyan®, Jamar®, Metron®, TumbleForms®, and Hygenic® brand names.

THERABAND TRUSTED PROGRESSION™ SYSTEM

THERABAND is the originator and creator of the Trusted Progression System since 1978.

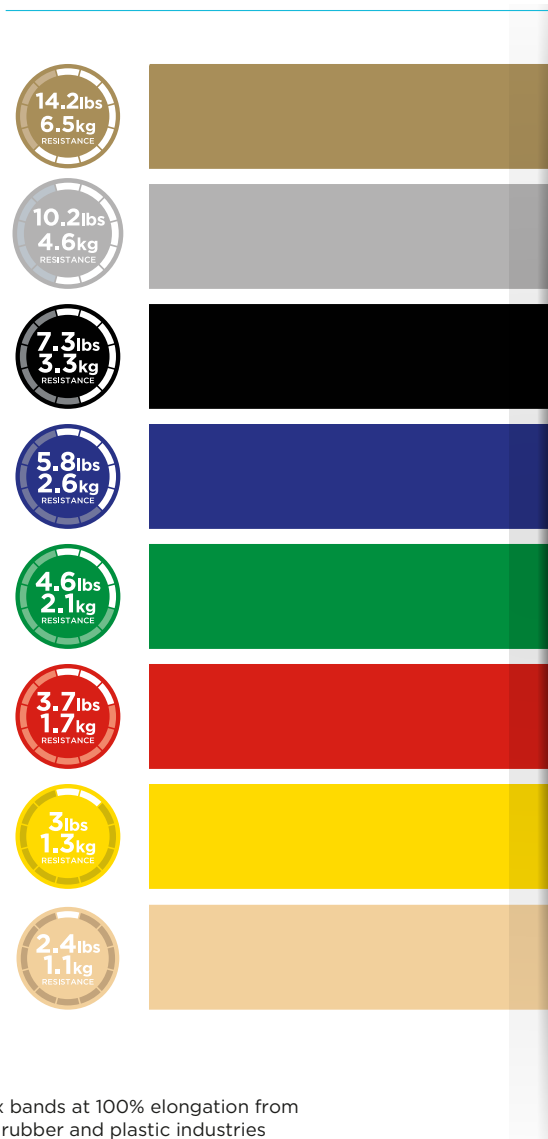

It is far more than eight colors, it is an exacting color-coded system of resistance levels that are pull-force tested and validated at THERABAND manufacturing facilities to ensure band integrity.

We stand alone in providing the clinician confidence to help their patients progress in their recovery. This "pyramid" embodies the unique proprietary system.

Trusted Progression™
proven in third-party testing
to have consistent pull force*

Color and Thickness

Resistance at 100% Elongation

Resistance Increase

Max	14.2 lbs 6.5 kg	40%
Super Heavy	10.2 lbs 4.6 kg	40%
Special Heavy	7.3 lbs 3.3 kg	25%
Extra Heavy	5.8 lbs 2.6 kg	25%
Heavy	4.6 lbs 2.1 kg	25%
Medium	3.7 lbs 1.7 kg	25%
Thin	3 lbs 1.3 kg	25%
Extra Thin	2.4 lbs 1.1 kg	—

* Based on independent third-party pull force testing THERABAND non-latex bands at 100% elongation from a leading ISO 17025 A2LA certified international laboratory dedicated to the rubber and plastic industries

PROFESSIONAL NON-LATEX RESISTANCE TUBING

Introducing the new THERABAND® Non-Latex Tubing extending the product range of the global leader in resistance therapy and fitness.

THERABAND® Professional Non-Latex Tubing provides identical performance to our latex tubing without the risk of latex allergies. The THERABAND TPE formula is powder and scent free and also more durable when compared to latex alternatives.

- Premium synthetic material provides added durability with familiar stretch and recovery
- Proudly made in the USA, the unique formulation incorporates our Trusted Progression System of consistent pull force resistance levels
- Packaged in economical bulk rolls 30.5m with no cuts in the full length of tubing
- Easily dispense from box and cut to length
- Six THERABAND color coded resistance levels from Yellow to Silver

THERAPY PUTTY

Introducing the new Therapy Putty from THERABAND® the global leader in resistance products.

THERABAND® Therapy Putty is designed for hand strengthening and postoperative rehabilitation. Physical and Occupational Therapists depend on high quality Therapy Putty for use during clinical treatments of hand pain from injury or surgery.

THERABAND's Therapy Putty product range is supported by our promise of Proven Science, Trusted Performance.

Our proprietary formulation are the result.

THERAPY PUTTY

THERABAND® Therapy Putty comes in two convenient formats

- Individual 3oz tubs in 6 escalating levels of resistance
- Packages of 10 each tubs of 2oz putty in five levels of resistance

Whether it's for clinical use or personal use, THERABAND® therapy putty comes in different sizes for easy portability.

Bleed-proof, non-oily formula that ensures clean use in schools, clinics, and homes.

ONE SYSTEM TWO OPTIONS UNLIMITED POTENTIAL

CLX™ Training Station CLX™ Anchor

We broke the norm with the revolutionary THERABAND CLX, non-latex resistance bands with built-in loops that do the work of bands, loops, and handles. Now the most trusted brand of rehab and exercise tools brings you the compact and sturdy CLX Station for your clinic, and a versatile Anchor for patient use anywhere.

One system now gives you and your patients unlimited versatility to customize setups for rehab and more intense strength building exercises like never before.

CLX™

1

CLX™ BANDS +CLX™ TRAINING STATION

Meet the New THERABAND® CLX™ Training Station

The THERABAND® CLX™ system – including a wall station, anchor, and a full range of CLX resistance bands, now provides unlimited versatility. With just one system you get unlimited potential for your clinic, training room, and at-home exercise programs.

THERABAND CLX Station

- ▶ Use the full progression of THERABAND CLX resistance levels
- ▶ 3 sturdy, adjustable anchor points for upper and lower body exercises
- ▶ 84-inch track with prescription markers for exact anchor placement, easy patient set up and charting

CLX Station Anchors (3 Included)

- ▶ Soft cradle keeps CLX in place while reducing wear and friction
- ▶ Woven design provides stable and lightweight security

14014 7031453 ●●●●●●●● CLX Wall Station*

Includes a full set of pre-cut THERABAND® CLX™, Yellow through Gold, 3 CLX™ Station Anchors, an accessory rack and a full-color poster with illustrations for patient learning.

2 CLX™ BANDS +CLX™ ANCHOR

Meet the New THERABAND® CLX™ Anchor

An essential accessory to any self-managed exercise or rehabilitation program, the new THERABAND CLX Anchor enables you to quickly and securely attach any THERABAND CLX to stable objects such as a door frame, fixed post, or hospital bed. The new soft cradle accommodates all THERABAND CLX color progressions, and the anchor easily transitions between wrapped or slotted configurations for maximum versatility to complete your prescribed rehabilitation or strength training regimens anytime, anyway, anywhere.

- ▶ Use it anywhere - in doors and around sturdy objects
- ▶ Mimic in-clinic exercises and increase patient compliance
- ▶ Soft cradle keeps CLX in place while reducing wear and friction
- ▶ Woven design and sturdy hook and loop provide stable and lightweight security

14013 7016663 CLX Anchor

- Anchor attaches quickly and securely to any stable object
- Soft cradle accommodates all CLX color progressions
- Conveniently allows rehabilitation and strength-building exercises to continue
- Replicate full range of clinic exercises and movements almost anywhere
- Lightweight & portable

HIGH RESISTANCE BANDS

New THERABAND® High Resistance Bands are designed to improve your sports performance, elevate your fitness and increase your strength. Backed by over 40 years of professional use, THERABAND® continues to be the brand most trusted by clinicians, professional athletes, and everyday fitness enthusiasts.

VISUAL RESISTANCE INDICATOR:

PROFESSIONAL RESISTANCE BANDS

THERABAND was created over 40 years ago by two clinicians to help patients recover safely and with confidence. Since then, **THERABAND has transformed the lives of millions for the better.** That passion is in the DNA of this storied brand. As the leader and pioneer, THERABAND is the standard that others measure themselves against; we are the original.

Our exacting levels of pull-force testing and product validation—as well as our proprietary formulas, processes and Trusted Progression™ System—were born to serve clinicians and the patients they guide. Designed and engineered in the USA, today the THERABAND brand and its portfolio lead worldwide.

Proven Science. Trusted Performance.

**THERABAND is the original, the innovator
and the creator of the category.**

NON-LATEX* ELASTIC RESISTANCE

*Not made with natural rubber latex

((5X+))

Now proven to last over five times longer than a leading competitor**

Non-Latex* - Identical Performance to Latex

- Many patients who react to certain proteins found in natural rubber latex must avoid latex bands.
- Unfortunately, most non-latex* elastic resistance bands do not offer the same performance as latex bands without the potential for causing a latex allergy reaction.
- THERABAND® Non-Latex* bands do not have a scent, powder or proteins.
- THERABAND® Non-Latex* Professional Resistance Bands provide the same quality and trusted resistance progression of our natural latex bands... they stretch like latex!
- THERABAND® Non-Latex* Professional Resistance Bands match the pull forces of our latex bands, and they follow the THERABAND® color-coded System of Progressive Resistance®.

Non-Latex* Multi-Band Patient Packs

Attractively retail packaged, these packs are ideal for home dispensing where a non-latex* product is needed to address an allergy/sensitivity and where patient progression through rehab is prescribed. Each band is 1.5 m (5 ft.) long.

EXERCISE STATIONS

Versatile In-Clinic Hub, Home Exercise Success

21915 081413152 ●●●●● Rehab & Wellness Station enables easy transitions between clinic visits and home exercise programs.

Station includes:

- Multi-dimensional wall mount system that provides three planes of movement with slide tracks, position indicators and one-hand lock down to enable easy patient set up, charting and documentation
- Portable base system with six connection points
- Trusted Resistance Tubing in four progressive levels and three lengths
- Three Pro Series SCP® Exercise Balls (Yellow, Green, Red)
- Two sets of Stability Trainers (Green, Blue)
- A complete accessory kit, including Waist Belt, Assist Straps (2), Head Strap, Exercise Bar, Extremity Straps (2), Exercise Handles (2) and an Accessory Rack
- Four full-color exercise wall posters

The color sequence links the Station to your home exercise product recommendations.

A complete accessory kit including Resistance Tubing

Two levels of Stability Trainers

Three Pro Series SCP® Exercise Balls
● Yellow ● Red ● Green

EXERCISE STATIONS

21900 081091198 ●●● THERABAND® Professional Exercise Station combines strength, balance and flexibility exercises into one convenient system for fitness and therapy.

- Integrates with Exercise Balls and Stability Trainers.
- Includes Resistance Tubing in three progressive levels and three lengths.
- Supplied with a 91.5 cm (36") Padded Exercise Bar, two Exercise Handles, two Assist™ Straps, and a full-color poster with 24 exercises and safety instructions.
- At approximately 6.5 kilograms (14 pounds), the base is lightweight and stackable.

Ultra Compact and Affordable Options

21910 081413145 ●●● THERABAND® Wall Station is the first compact, total body rehabilitation system designed for in-clinic strength training.

- Features the familiar colors and resistance levels of resistance tubing.
- Includes 30.5 cm (12") Tubing in four progressive levels.
- Multidimensional design with three planes of movement.
- Comprehensive accessory package including Exercise Handles, Extremity Straps and Head Strap.
- Two full-color exercise posters.

ACCESSORIES

Tubing Accessories

Include CE Mark.

22135 081510387 Accessories Kit (Retail Display Box)

Includes a Door Anchor, an Assist Strap and two Exercise Handles.

22125 081086701 Sports Handle

30.5 cm (12") long and allows for two hands to grasp the handle easily.

22010 081287242 Assist™ Strap

Increases the range of exercises that can be performed with bands and tubing. One end loops around an extremity, while the band/tubing is attached to the other end. This allows users with poor grip strength, like victims of arthritis, to use bands and tubing in training and rehab programs.

22120 081287234 Exercise Handles (pair of two)

Provide an easy, secure grip for bands or tubing.

22130 081034461 Door Anchor

Used to secure bands or tubing for upper and lower body workouts. Can be secured at any point along the frame of a standard door, offering versatile anchoring options.

22140 081329275 Extremity Strap

Cuff wraps around an extremity to serve as an attachment point, while the cinching mechanism is used to secure the cuff to a band or to tubing.

ACCESSORIES

Training Station Accessories

Training Station Accessories are compatible with the Rehab & Wellness Station, Exercise Station, Wall Station or other exercises.

EXERCISE BALLS

Standard THERABAND® Exercise Ball

The best Standard Exercise Balls on the market come with two plugs, an inflation adapter and a helpful poster illustrating 24 exercises. Five sizes of balls are offered to accommodate users' height variations.

THERABAND® Pro Series SCP Exercise Ball

These Professional Slow-Deflate Balls are available in five sizes for a custom fit. Each slow-deflate exercise ball comes with two plugs, an inflation adapter, a measuring tape to help insure proper inflation, and a poster detailing 24 exercises.

ABS* Exercise Balls with anti-burst system

are made from a specially formulated compound, resisting the tendency to burst when punctured and gradually deflates.

(*) ABS is a registered tradename of Togu Obermaier oHG.

EXERCISE BALLS

Mini Ball

12305 7300215 THERABAND® Mini Ball is soft and inflatable to support a range of varied and effective exercises designed to increase core strength in the back and abdominals. Tactile, stretchy PVC makes the yellow 23 cm (9") diameter ball responsive to the touch and non-slip when placed against a hard surface. Includes an instructional poster.

Pilates Ball

The Pilates Balls are universal training tools of exercise in the classic pilates school. Available in three sizes, soft and easy to handle, the balls can be used for pelvic re-education or shoulder rehabilitation. The foldable ball is easy to inflate and deflate.

Pilates Balls (EU Only)

- 24030 Ø 18cm ● Red
- 24040 Ø 22cm ● Blue
- 23100 Ø 26cm ● Silver

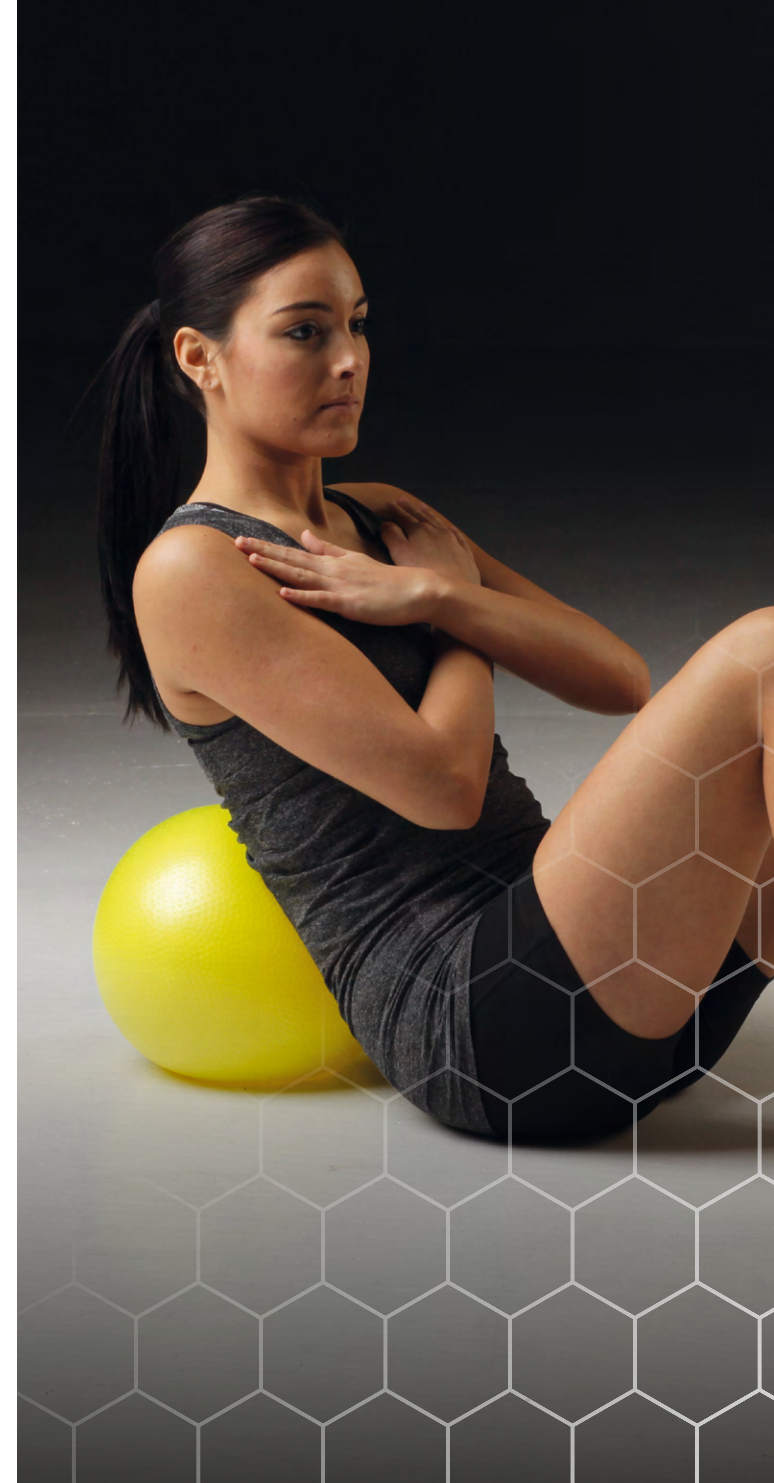

Exercise Ball Accessories

23210 081422237 Power Pump

An essential tool for achieving and maintaining proper exercise ball inflation. Most clinics use hard-to-use ball pumps. This one is easy!

23230 081510395 Exercise Ball Stackers

Set of three. Simplifies storage of inflated balls.

BALANCE PLATFORMS

One Balance System for All Patient Needs

Have you seen the evidence lately about the effectiveness of balance boards and foam surfaces? Review evidence-based research on various balance platforms at THERABAND.com to learn more.

Unstable surfaces are leading to unwavering results—reduced risk of sports-specific injuries, increased core strength, improved muscle reaction times, decreased risk of falls, improved gait and mobility, increased proprioception, and more. THERABAND® stability products, designed for people of all fitness levels, are the best solutions on the market for sports performance enhancement, balance training and rehabilitation.

If your patients aren't receiving the benefits of sensorimotor and proprioceptive training, we have a simple, proven package to increase your breadth and effectiveness. We've put together the exercises, the products and the protocols you need. Our complete line of stability products follows the System of Trusted Progressive Exercise, enabling you to help patients advance effectively through different levels. We make effective balance training simple. balance products include both soft stability tools (Stability Trainers and Stability Disc) and rigid stability tools (Rocker Board and Wobble Board). Their durable, lightweight construction makes all of these products user-friendly, but their benefits extend much deeper than the surface. Includes CE Mark.

THERABAND® System of Progressive Exercise

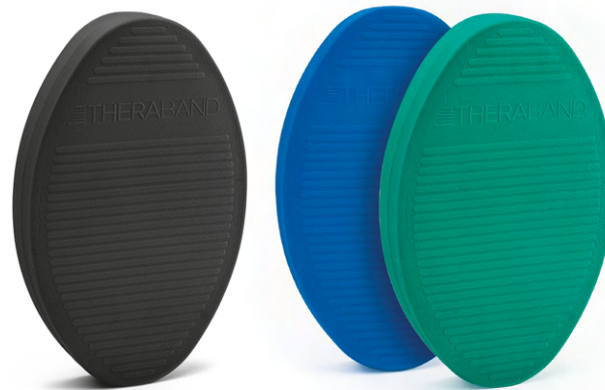

Beginner  Advanced

The original system of progressive exercise

STABILITY TRAINERS & DISCS

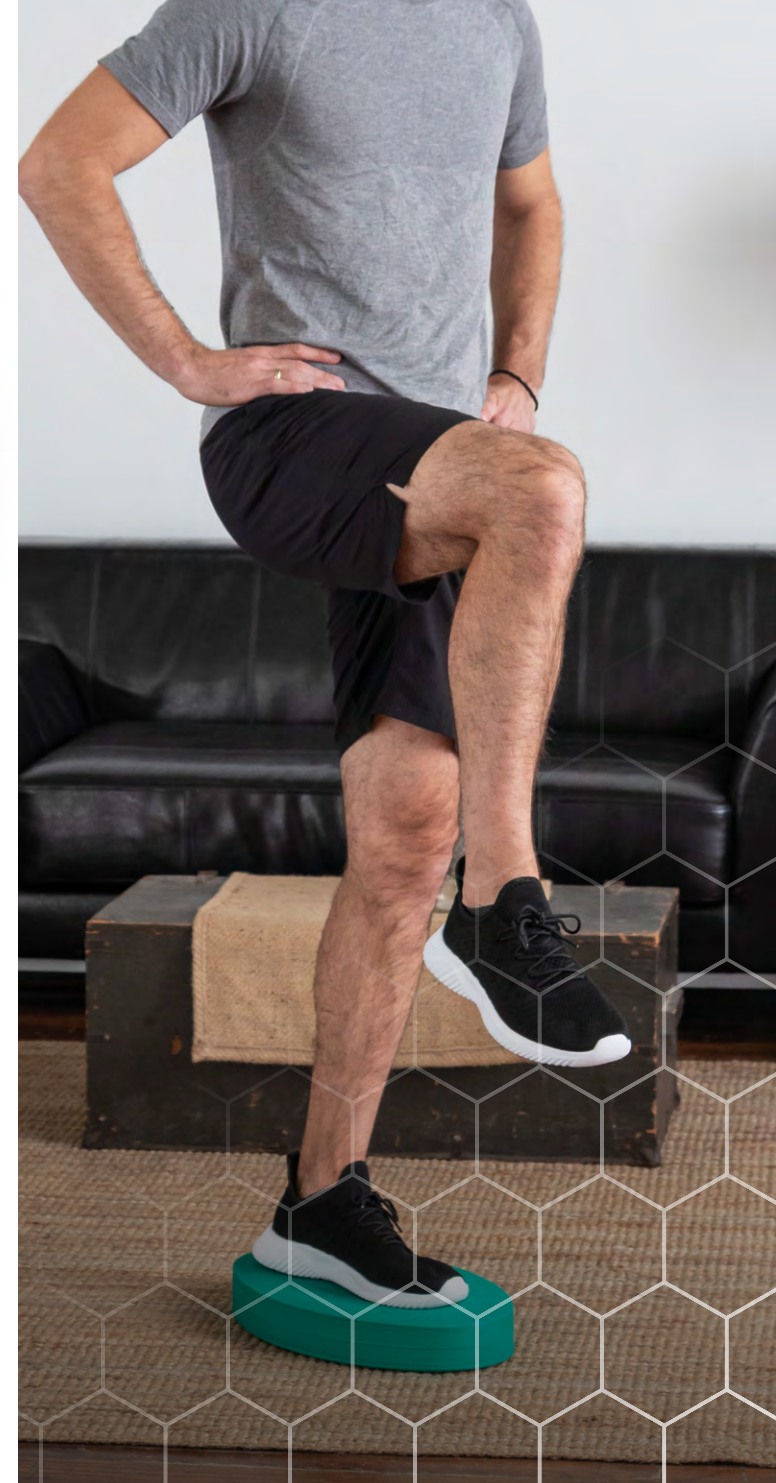

THERABAND® Stability Trainers are oval-shaped, color-coded pads supplied in three densities to provide a progressive system of balance training for rehab, post-rehab conditioning and fitness applications. The Green (Firm, Beginner) and Blue (Soft, Intermediate) pads are molded in closed-cell foam with a ridged surface. The Black (Extra-Soft, Advanced) PVC pad is inflated with air and has rounded points that provide tactile stimulation on one side. The Black Stability Trainer has sturdy edges that help prevent ankle-roll—a differentiator in the air-filled balance product marketplace.

23305	081247311	Beginner	● Green, Firm
23304	081247295	Intermediate	● Blue, Soft
23307	081247329	Beginner	● Green, Firm (Set of 2)
23306	081247303	Intermediate	● Blue, Soft (Set of 2)
23323	081091206	Advanced	● Black, Extra-Soft
12424	7300178	Advanced	● Black, Extra-Soft (Individually Boxed for Retail)

The **THERABAND® Stability Disc** is more challenging than the THERABAND® Stability Trainers. The 33 cm (13") diameter Disc offers an unstable, sensory-stimulating surface designed to facilitate balance and proprioceptive training, as well as automatic postural reactions. The Stability Disc is also ideal for active sitting.

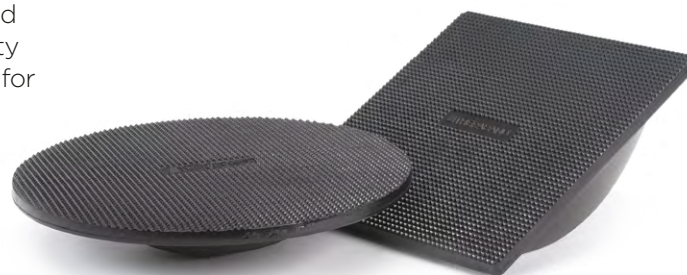

23303	081510445	Stability Disc	● Silver, Active Sitting/Advanced Sports Training
-------	-----------	----------------	--

BOARDS & CUSHIONS

THERABAND® Rocker and Wobble Boards comprise the rigid stability line and embody the higher end of the system of progressive balance training. Unlike many competitors' products, they are durable and lightweight. Made of molded plastic, the square Rocker Board and round Wobble Board also offer security and versatility in the form of an anti-slip bottom and a textured top for additional proprioceptive input.

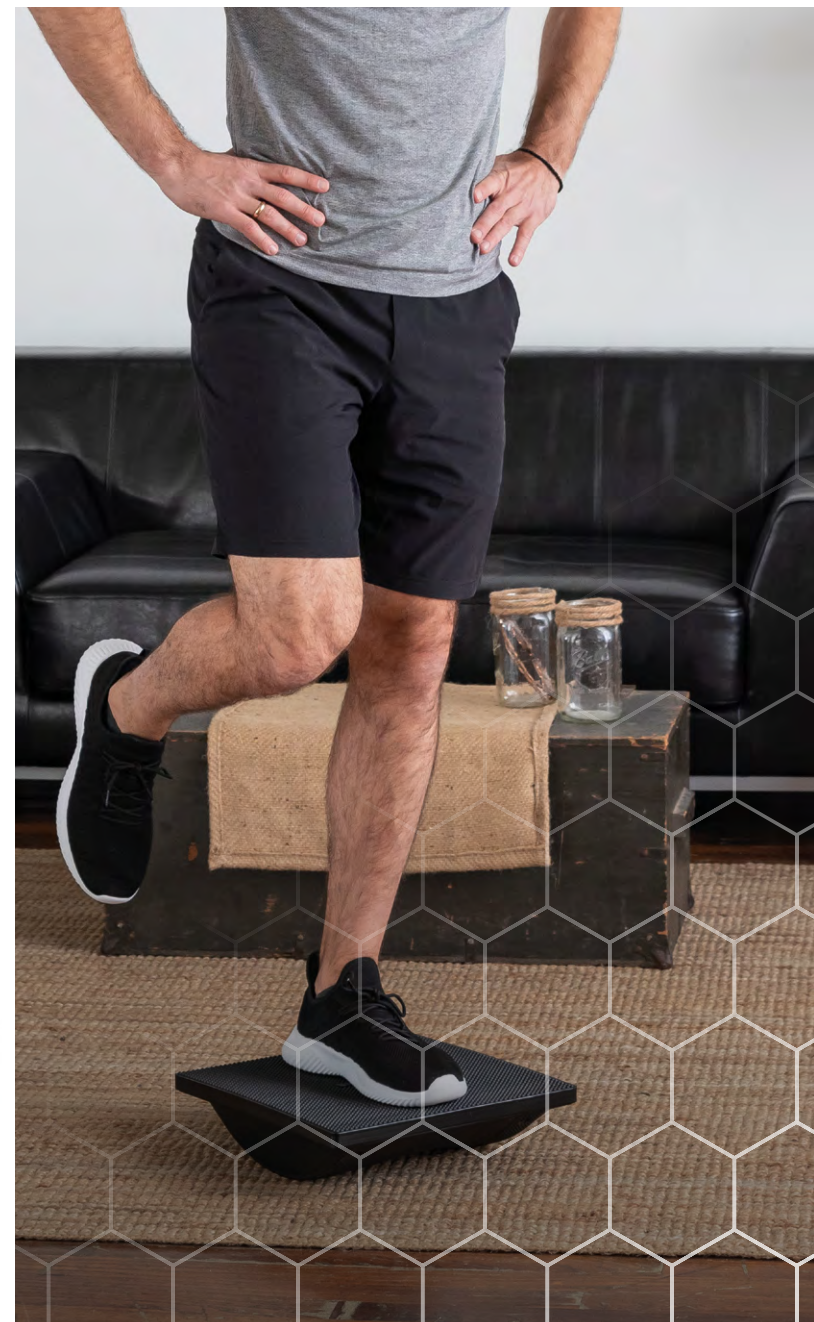

- 23300 Rocker Board ● Black, Challenging
- 23301 Wobble Board ● Black, Very Challenging

THERABAND® Dynamic Ball Cushions are usable as a balance trainer, dynamic seat cushion or universal trainings tool. The XL-Version offers various training opportunities in all body positions. Dynamic Ball Cushions offer an unstable and sensory stimulating surface designed to facilitate balance and proprioceptive training.
